

RAYYAN JURAIID KHAN

Maharashtra, India | 9096062001 | rayyanjuraiddkhan@gmail.com | [LinkedIn](#) | [Project Portfolio](#)

An emerging data professional with a strong foundation in software development and a growing specialization in **Data Engineering**, **Data Analytics**, and **Cloud Technologies**. My journey began with **Web Development** and **Java Programming**, helping me build strong problem-solving and analytical skills. Through hands-on projects and industry experience, I have gained practical expertise in **Python**, **SQL**, **Power BI**, **Statistics**, **ETL pipelines**, and **Data Warehousing**. Recently, I designed and developed a **SQL Data Warehouse using Medallion Architecture** and contributed to real-world data engineering projects involving **Google Cloud API logs**, **data extraction, transformation, and validation**, and **analytics-ready datasets**. I have also worked with **Google Cloud Platform (GCP)**, **cloud deployments**, and **AI application infrastructure**. With leadership experience and a continuous learning mindset, I am passionate about building scalable, data-driven solutions that create business impact.

TECHNICAL SKILLS

• Java • Numpy • Statistics • Data Warehouse • OOP • GCP	• Python • Pandas • Power BI • AWS • DSA • API Logging	• SQL • Matplotlib • HTML • Linux • Excel • PySpark	• JavaScript • Seaborn • CSS • Git • ETL • BigQuery
--	--	---	---

WORK EXPERIENCE

Data Engineering Intern | Singing Bird Apps

06/2026 – Present

- Built ETL pipelines to extract Google Cloud API log data, perform transformations and validations, and deliver analytics-ready datasets for reporting workflows.
- Utilized SQL for data extraction, validation, and analysis while working with cloud-generated operational and usage datasets.
- Assisted in deploying and configuring Google GenMedia Creative Studio on GCP using Cloud Run, APIs, IAM, and service accounts to enable secure and scalable AI application delivery.

Frontend Developer Intern | TLogics

10/2023 – 01/2024

- Developed responsive front-end interfaces using HTML, CSS, and JavaScript, improving usability and collaborating with team members to deliver a functional web application.

PROJECTS

SQL Data Warehouse Project | Data Engineering | [Github](#)

- Designed and developed a SQL Data Warehouse using Medallion Architecture (Bronze, Silver, Gold) for scalable data processing.
- Built ETL pipelines to ingest, clean, transform, and validate data from multiple source systems.
- Implemented Star Schema with Fact and Dimension tables to create business-ready datasets for analytics.
- Technologies: SQL Server, T-SQL, ETL, Data Warehousing, Data Modeling, Star Schema.

Personalised AI Desktop Assistant | Python | [Github](#)

- Developed a voice-controlled desktop assistant for task automation, reminders, and real-time information retrieval.
- Implemented NLP and integrated APIs with Python libraries to improve user productivity by automating routine desktop tasks.

Birth Weight Predictor | Machine Learning & Web Development | [Github](#)

- Designed and developed a Machine Learning-based web application to predict baby birth weight using maternal and pregnancy-related health factors.
- Performed data preprocessing, exploratory data analysis, and trained regression models for accurate birth weight prediction.
- Implemented a Flask-based API to provide real-time predictions using user input data in JSON format.
- Technologies: Python, Pandas, NumPy, Matplotlib, Scikit-learn, Flask, Pickle, REST API, Unicorn, Nginx, Render

Automated Attendance System | Python | [Github](#)

- Designed and implemented an automated attendance system using computer vision to mark attendance in real time.
- Integrated CCTV/camera input to detect and recognise individuals, reducing manual effort and errors.
- Ensured accurate tracking and efficient data handling for attendance records.
- Reduced manual attendance tracking effort through automated recognition.

- Technologies: Python, OpenCV

EDUCATION

Bachelor of Engineering in Information Technology

10/2022– 10/2026

Mahatma Gandhi College of Engineering, Nanded

ACHIEVEMENTS

- Department Newsletter Head Coordinator
- General Secretary ITSA Club
- VISIO Tech best coordinator.
- Team Leader
